EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: After extensive search by the undersigned Examiner, the two (2) prior art documents cited on the attached form PTO-892 and the documents cited by applicant (see the attached copy of form PTO-1449) represent the closest known prior art. None of the prior art documents disclose or suggest a wavelength converter employing gain non-linearity of a semiconductor optical amplifier (SOA) for suppressing the degradation in extinction ratio during wavelength conversion comprising a unique Mach-Zehnder interferometer arrangement of first, second, and third SOA's, first and second semiconductor lasers, first and second filters, and a multiplexing means, all arranged and interconnected as set forth in the present claims. All of applicant's pending claims (i.e. claims 1-13) are therefore allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

DISCUSSION OF THE CITED PRIOR ART

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent 6,624,929 to Kang et al describes a Mach-Zehnder interferometer arrangement based on the non-linearity of semiconductor optical amplifiers (SOA's). U.S. Patent Application Publication 2002/0109889 A1 to Koteles

Art Unit: 2874

discusses the use of semiconductor optical amplifiers (SOA's) in optical wavelength conversion systems.

As mentioned above, all of the prior art documents submitted by applicant in the Information Disclosure Statement filed on June 9, 2004, have been considered and made of record, but none disclose or suggest the claimed invention. Note the attached initialed copy of form PTO-1449.

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351.
